## PRINTER A SUICIDE BY ASPHYXIATION

Alarmed by the strong odor of gas coming from a room on the second floor of the apartment house at 225 H street, northwestern, in the house called the Washington Gas Light Company last night. Two men, Mr. John J. Donohue and James B. Brooks, breaking down the door of the room, found the dead body of Charles S. Moss, a printer in the Government Printing Office, stretched on a bed. The gas jet was wide open and the chinks of the windows had been stuffed with rags. Coroner Nevitt, after viewing the body, issued a certificate of suicide.

Dr. Nevitt declared Moss had been dead 18 hours. For some time he had occupied the flat alone, his wife being sick in the Washington Asylum Hospital, and it is thought dependency over her condition caused the act. The body was turned over to relatives of the dead man.

## RUNAWAY PAIR WEDES AMONG CORNSTALKS

Wilmington, Del., Sept. 6.—Maud Miller on a summer day never looked lovelier than Margaret Beatty, a former daughter of Hockessin, when she stood as a bride in the middle of a waving cornfield.

The bridegroom was Dr. Alvin Rupert, of New Rochelle, N. Y. It was a runaway match—so much so that the bride played her stately part in the fetching simplicity of a sunbonnet and a gingham frock.

Fearful of pursuit, the wedding party hastily penetrated the sheltered expanse of a cornfield. It was as much as the minister could do, however, to get through the service quickly enough to outspeed the bride's vigilant mamma, who had followed Margaret and arrived breathless just after the ring had been slipped on her finger.

## MANY PEOPLE NOW TEST THE REMEDY

Plant Juice Man, at People's Drug Store, 7th & E St., N. W., Gives Interview.

No other remedy has been accorded the instant success that has been attained by Plant Juice, the new herbal stomach remedy, the remedy that "makes life worth while for stomach sufferers," as it is being attested at the novel introduction of this remedy at its present introduction in Washington.

Stomach trouble is the direct cause of more derangements of the nervous system and general bodily functions than any other ailment, according to a statement of the Plant Juice man, who is introducing the new herbal stomach remedy here.

Indigestion wrecks the entire nervous system, clogs up waste matter in the intestines, which in turn poisons the blood. Half-digested food in the stomach literally rots, forms poisonous gases and makes disease of all kinds. Constipation, keeping the decayed matter in the body, is responsible for many hours of illness.

Laxatives help but temporarily, as they merely relieve the condition for the time being, and constant use of laxative produces paralysis of the bowel muscles. The cause of constipation is stomach trouble.

Plant Juice, the new herbal stomach remedy, is the remedy for these modern ailments—headache, dizziness, constipation, backache, weak memory, bad blood, indigestion, unsound sleep, indigestion, dizziness. It will give almost instant, positive relief, and if taken for a short time the results will be permanent. Do not neglect your condition—it always leads to more serious trouble. Give your run-down system a chance to make good. Help it so that you may know once again the feeling of real health; again have energy and vigor, clear tongue, sweet breath, good complexion and be able to sleep sound, to eat food without fear of the consequences, no more irritability, indigestion or dyspepsia.

The Plant Juice Man is at The People's Drug Store, corner of 7th and E St., N. W., where he is daily meeting the local public and introducing and explaining the merits of this remedy. Free samples given.—Adv.

## SILK COMPANY ERECTS ADDITION TO FACTORY

Alexandria Plant Will Employ Many New Hands.

THE HERALD BUREAU, R. E. Knight & Son, 1525 K Street.

Alexandria, Va., Sept. 6.—The Klotts Silk Throwing Company, whose plant is located on the west side of Pitt street, between Gibson and Wilkes streets, has just begun the work of erecting a large brick addition to its building which will be two-stories high. The building will be 60 by 100 feet.

With the erection of the new plant this concern will have double its present factory face and will give employment to a large number of additional hands. The contractors for the new structure have been awarded to a Frederickburg contractor. The present building, a frame structure, will be razed upon the completion of the new factory.

A date for the laying of the cornerstone of Alexandria's new hospital, Duke and Washington streets, will be announced by the trustees of that institution the latter part of this week. It is regarded as highly probable that the cornerstone will be laid either next Monday or Tuesday afternoon by Alexandria-Washington Lodge of Masons.

The brickwork on this structure is now progressing very satisfactorily. It is fronted by a Colonial brick. The contractors in charge of the construction hope to be able to have all of the brickwork completed and the building under roof before the cold weather begins. After this is done the interior will be fitted out and it is hoped to have the hospital ready for occupancy early next spring.

## GARDNER WAS SILENT; REMARKS PUBLISHED

Representative A. P. Gardner, of Massachusetts, was scheduled to speak the Democratic party yesterday, but the avalanche of cruel words did not get into the Congressional Records.

The solon from Hamilton, Mass., had a fine speech protesting against the retaliatory measures incorporated in the revenue bill against the British black-list. The conference report on the revenue bill was deferred however, so Representative Gardner still has his remarks to be voiced, though they have been spread over the country as news of yesterday's Congressional deliberations.

In substance, Representative Gardner brands the Democratic party as unfit and inefficient. Democratic leaders expressed no surprise when informed of the text of the remarks.

## WHEN YOU WAKE UP DRINK GLASS OF HOT WATER

Wash the Poisons and Toxins from System Before Putting More Food Into Stomach.

Says Inside-Bathing Makes Anyone Look and Feel Clean, Sweet and Refreshed.

Wash yourself on the inside before breakfast like you do on the outside. This is vastly more important because the skin pores do not absorb impurities into the blood, causing illness, while the bowel pores do.

For every ounce of food and drink taken into the stomach, nearly an ounce of waste material must be carried out of the body. If this waste material is not eliminated day by day it quickly ferments and generates poisons, gases and toxins which are absorbed or sucked into the blood stream, through the lymph ducts which should suck only nourishment to sustain the body.

A splendid health measure is to drink, before breakfast each day, a glass of real hot water with a teaspoonful of limestone phosphate in it, which is a harmless way to wash these poisons, gases and toxins from the stomach, liver, kidneys, and bowels, thus cleansing, sweetening and freshening the entire alimentary canal before putting more food into the stomach.

A quarter pound of limestone phosphate costs but very little at the drug store but is sufficient to make anyone an enthusiast on inside-bathing. Men and women who are accustomed to wake up with a dull, aching head or have turned tongue, bad taste, nasty breath, sallow complexion, others who have bilious attacks, cold stomach or constipation are assured of pronounced improvement in both health and appearance shortly.—Adv.

## Notes of Camp Ordway

By WATSON DAVIS.

There are a number of men in the National Guard who have seen much of the world. Private Thomas Walsh is one of these. He has been an able seaman on tramp and cargo steamers plying between different ports of the world. He has touched Italy in his wanderings, and has shipped for the Canal Zone. He has been in two ports on the east coast of Mexico—Tampico and Progreso—and the ship on which he went to Progreso brought twenty-five refugees from that city to Key West. He is now a private in Company M.

G. G. McGrath, of the Machine Gun Company, feels much honored. He is the possessor of an iron cross, similar to those presented German soldiers for deeds on the field of battle. He received it at a formal presentation in the mess tent, in the presence of the company officers. Corp. William McKelmar made the presentation speech. McGrath now proudly wears his medal on his campaign shirt.

Sergt. Ernest Coolidge, of Troop A, who has been in charge of all recruiting "stunts" since Troop A has been in camp, has been assigned to recruiting duty in the city, and will have to give up his work as supply sergeant of the troop. Sergt. James F. Brittingham has been designated by Capt. J. H. Washburn as his successor.

Once during the trouble that followed the occupation of the Philippines a force of sailors attacked the little town of Cibu. Thomas H. Downy was among the American fighters who participated, and relatives of Gaudencio B. Marino, Filipino, fell in the fighting that followed. Today both Downy and Marino are in Company L, Third Infantry, N. G. D. C. They discovered each other the other day, and learned that they had been enemies in that little fight in Cibu. They did not open old wounds; they simply shook hands. They are now American soldiers, fighting under the same American flag.

The time for the formation of football teams in the companies has arrived. In Company G, Frank Heise, formerly president of the Empire Athletic Club, has announced the following candidates: Bland, Bierman, Walsh, Rice, Ahern, Green, Ewing, Pierson, Wilkins, Harper, Walstrum, Waldecker, Goddard, Campbell.

Lieut. Livingston is coaching the Company H. The candidates are Reppel, Cavanaugh, Walsh, Brown, Ahern, Belasky, Love, Conlon, Dove, McQuade, Finch, Daily, Mace, Burdine, Fowler, Rabbit, Huff.

Non-commissioned officers' school each afternoon in Hathaway Park, the grove of trees on line officers' row, Third Infantry, is a forum where the sergeants and corporals discuss all kinds of military problems. Lieut. J. D. Miley, just out of West Point, is teacher, and over a large map of Gettysburg, mimic wars are fought. These map problems give the non-coms theoretical training for the problems they work out practically in the combat marches of the morning.

## BERLIN CLAIMS GREAT DAMAGE IN AIR RAID

London Denies That Vast Fires Were Started.

(By the International News Service.) Berlin, via Sayville, Sept. 6.—German papers publish the following details about the last Zeppelin attack on England:

The fortress of London and the northern and western parts of England were several times bombarded during four hours. Numerous conflagrations observed in the terrain bombarded proved the success of the attack.

Other airships attacked the factories and fortifications of Norwich, where strong explosions and great conflagrations were caused. Searchlight batteries and industrial establishments were bombarded at Oxford, Hardwich, Boston, and on the Humber, conflagrations being caused.

London, Sept. 6.—Commenting on today's statement from Berlin regarding alleged damage done by the latest Zeppelin raid, the official press bureau says: "It is necessary only to repeat that the damage done is practically nil and exactly what it has been reported as being. There were no important conflagrations and no explosion."

## GAS BOMBS KILL FOE ERE THEY CAN MOVE

Russians Find Enemy Dead in Grim Attitudes.

(By the International News Service.) Petrograd, Sept. 6.—The attack at Svinich, twenty miles southeast of Vlodimir Volynskii, was heralded by a dramatic incident. During the artillery preparation in this part the Tatars were treated liberally to the new Russian gas shell. The Austrian fire was suddenly silenced, the Russians pushing forward, finding the trenches tenanted only by dead, grim, grotesque pictures, lying or leaning, evidently killed instantly by the fumes from the shells. The number of Austrians who thus perished is several hundred.

Thursday morning there was a five-hour artillery preparation. By 2 o'clock in the afternoon three lines of Tatar trenches had been captured along a front of twenty miles. Three thousand prisoners, many of them Germans, have arrived at Lutsk. The strategy of Gen. Brusiloff's grand offensive is based upon the principle of a suspension of the attack as soon as it begins to meet a really serious resistance, and of the rapid concentration for a thrust in a fresh direction. New movements begin along the whole front, so as to leave the opponent in uncertainty as to the point of the real danger, and the Tatars dare not stiffen their line in one sector at the expense of another. It is known that the trenches really are empty.

Profound secrecy is essential. Brusiloff
